IF Contract Allocation has been greater than Contract Expenditures, please give the reasons and explain where surplus funds were spent:		The reason that FY allocations for the full-risk Managed Care Contractor contract may exceed the contract expenditures is that the contract maximum liability must be estimated using current enrollment and medical/behavioral claims cost. If the program's enrollment were to vary significantly from the original estimate, allocation could be higher than actual expenditures.			
IF surplus funds have been carried forward, please give the reasons and provide the authority for the carry forward provision:		If the amount spent on this contract is less than the budgeted amount and contributes to a net surplus for the bureau, surplus funds would be carried forward subject to authority granted in Section 48, Item 3 of the General Appropriations Act.			
IF Contract Expenditures exceeded Contract Allocation, please give the reasons and explain how funding was acquired to pay the overage:		Fiscal Year expenditures for the full-risk Managed Care Contractor contract may exceed the contract allocations because the contract maximum liability and fiscal year projections must be estimated prior to services based on current enrollment and medical/behavioral claims cost. IF Contract Allocation has been greater than Contract Expenditures, please give the reasons and explain where surplus funds were spent:		The reason that allocations for the full-risk Managed Care Contractor contract exceeds the contract expenditures are that the contract maximum liability must be estimated before the first year of the contract using current enrollment and medical/behavioral claims cost. If the program's enrollment were to vary significantly from the original estimate, allocation could be higher than actual expenditures.

This contract represents the Bureau of TennCare's competitively awarded procurement of medical and behavioral services for TennCare members through a full risk capitation payment. The contract itself does not identify savings, however, the full-risk insurance model encourages contractors to deliver all required covered benefits in a cost efficient manner by putting risk on contractor and not the state.

- 2.30.14.6 The CONTRACTOR shall submit a monthly *List of Involuntary Terminations Report* (including providers termed due to sanctions, invalid licenses, etc.) due to fraud and abuse concerns to TENNCARE.
- 2.30.14.7 In addition to the appropriate agency as described in Section 2.20.2, the CONTRACTOR shall report all confirmed or suspected fraud and abuse to TENNCARE immediately in accordance with Section 2.20.2.

20. Section 3.4.3.7 shall be deleted and replaced as follows:

- 3.4.3.7 For CHOICES members, only the non-long-term care component of the base capitation rate will be adjusted for health plan risk. The long-term care component of the base capitation rate will not be adjusted for health plan risk. The long-term care component of the base capitation rate will be adjusted according to the following:
 - 3.4.3.7.1 Member Movement during Implementation and/or Open Enrollment Periods
 - 3.4.3.7.1.1 TENNCARE will track CHOICES member change requests that occur from March 1st, 2010 through the completion of the 2010 open enrollment period for enrollees who were enrolled in CHOICES on March 1, 2010.
 - 3.4.3.7.1.1.1 CHOICES members that change MCOs during the open enrollment period will be designated as either a NF enrollee or an HCBS enrollee based upon the determination made in the eligibility file on the date of their official transfer.
 - 3.4.3.7.1.1.2 The net transfer of CHOICES members from March 1, 2010 through May 31, 2010 will be compared to the mix of NF/HCBS enrollees in the data book assumptions. If the mix of net transfers exceeds one half (½) of one (1) percent different between the MCOs, rates will be adjusted accordingly.
 - 3.4.3.7.1.2 A similar process will occur in May 2011, after the completion of the open enrollment period for 2011. This process will compare the effect of net transfers as compared to the mix before the 2011 open enrollment period.
 - 3.4.3.7.1.3 This adjustment will be budget neutral to the state.

Amendment Number 6 (cont.)

3.4.3.7.1.4 This adjustment described in Section 3.4.3.7.1 is intended to address changes in CHOICES member enrollment mix due to enrollees changing from one MCO to another and does not address changes in enrollment mix due to other factors.

3.4.3.7.2 New Membership

3.4.3.7.2.1 In February 2011, after each new enrollee's forty-five (45) day change period is over, TENNCARE will review the patterns of MCO enrollment for the new CHOICES members who have enrolled in the CHOICES program from March 1, 2010 until December 31, 2010.

3.4.3.7.2.1.1 In order to protect each MCO from adverse selection, TENNCARE will compare the distribution of new enrollees between MCOs to the regional averages. If the mix of net transfers exceeds one half ($\frac{1}{2}$) of one percent (1%) different between the MCOs, rates will be adjusted accordingly. This is not intended as a rebasing of the overall regional rates.

3.4.3.7.3 These two review processes described in Sections 3.4.3.7.1 and 3.4.3.7.2 are meant to assure a fair procedure to protect MCOs from adverse selection, either from members changing plans during the implementation and open enrollment periods or new members selecting one MCO over another in a disproportionate manner. The reviews are not meant to rebase the rates based upon the overall trend in the CHOICES program.

3.4.3.7.4 The CONTRACTOR and TENNCARE recognize that there may be other circumstances that warrant a rate adjustment to the long-term care component of the base capitation rates and therefore, as determined by TENNCARE, in order to maintain actuarial soundness, TENNCARE may adjust the rates accordingly.
